STANDARDS FOR APPROVAL:

The applicant shall demonstrate the proposed request is consistent with the Master Plan and is in compliance with Title 30.

Analysis**Comprehensive Planning**

In addition to the standards for approval, the applicant must demonstrate the zoning district is compatible with the surrounding area. Although nearby properties are zoned RS80, such properties are either undeveloped or being used for industrial uses such as outside storage. Furthermore, these properties and the subject site are planned for Business Employment (BE) uses where IL zoning would be a conforming zone change. Additionally, the adjacent parcel to the east is owned by the same property owner and is zoned IL; therefore, the proposed zone change would unify both parcels under the same zoning category. The request complies with Policy 5.5.1 of the Master Plan which promotes designating and supporting the development of industrial and employment uses in areas that are proximate to major air, rail, and highway facilities, as I-15 is nearby to the east. For these reasons, staff finds the request for IL zoning is appropriate for this location.
