Project Description

General Summary

- Site Address: N/A
- Site Acreage: 5
- Existing Land Use: Undeveloped

Applicant’s Justification

The applicant states that this amendment is justified by the unique characteristics of the subject parcels. Their proximity to a 100 foot wide public right-of-way makes them less suitable for a traditional rural neighborhood development. Instead, the proposed Low-Intensity Suburban Neighborhood (LN) land use category would harmonize with the existing surroundings by serving as a transitional buffer between the established ranch estate homes to the south and the higher intensity of the adjacent roadway. Furthermore, the proposed Plan Amendment recognizes the pressing need for in-fill developments throughout Clark County. As urban areas expand, in-fill development becomes essential for optimizing land use and minimizing urban sprawl.

Comprehensive Planning

Plan Amendment

The applicant shall establish the request is consistent with the overall intent of the Master Plan by demonstrating the proposed amendment: 1) is based on changed conditions or further studies; 2) is compatible with the surrounding area; 3) will not have a negative effect on adjacent properties or on transportation services and facilities; 4) will have a minimal effect on service provision or is compatible with existing and planned service provision and future development of the area; 5) will not cause a detriment to the public health, safety, and general welfare of the people of Clark County; and 6) adherence to the current goals and policies of the Master Plan would result in a situation neither intended by nor in keeping with other core values, goals, and policies.

The applicant requests a change from Ranch Estate Neighborhood (RN) to Low-Intensity Suburban Neighborhood (LN). Intended primary land uses in the proposed LN land use category include single family detached homes. Supporting land uses include accessory dwelling units and neighborhood serving public facilities, such as parks, trails, open space, places of assembly, schools, libraries, and other complementary uses.

Staff finds the request to redesignate the site to Low-Intensity Suburban Neighborhood (LN) will not be compatible with the surrounding area. The subject site is adjacent to developed ranch estate homes with properties master planned RN (Ranch Estate Neighborhood) to the north, east, south, and west. The closest smaller lot single family development is over 1,000 feet away on the east side of Tenaya Way. Therefore, Tenaya Way currently acts as a clear line of demarcation between suburban neighborhoods to the east and the ranch estate neighborhoods to the west. Furthermore, directly to the north of this site is an R-E single family residential development that recently completed construction last year; and therefore, shows this area is still a viable RNP neighborhood. The request does not comply with Policy 1.5.1 of the Master Plan which supports the protection of existing Rural Neighborhood Preservation (RNP) areas as defined by NRS 278;

and Policy 1.5.2 which promotes adopting and implementing standards to protect the established character and lifestyles associated with RNP areas and minimize future conflicts with higher intensity development planned on sites that are adjacent to RNP areas. For these reasons, staff finds the request for the LN land use category not appropriate for this location.
