BACKGROUND:

The Clark County Desert Conservation Program (DCP) holds title to surface and groundwater rights which have been acquired over the years to comply with the Clark County Multiple Species Habitat Conservation Plan (Plan) and associated Section 10(a)(1)(B) Incidental Take Permit (Permit) issued pursuant to the federal Endangered Species Act. The DCP has examined its inventory of water rights and determined that fifty-eight (58) surface water rights and twelve (12) groundwater rights are no longer necessary for Plan and Permit compliance. The State of Nevada is interested in acquiring the water rights for the public purpose of restoring, managing, and maintaining water resources for fish and wildlife in southern Nevada.

A public hearing will be set for October 5, 2021 at 10:00 a.m. to hear any objections to the proposed conveyance.

This item was presented to the County Long Range Planning Committee on February 15, 2019.
