BACKGROUND:

Project Description

General Summary

- Site Address: 2625 & 2675 Westwind Road
- Site Acreage: 3.44
- Existing Land Use: Place of worship & parking lot

Applicant's Justification

The applicant is requesting a Master Plan Amendment from Ranch Estate Neighborhood (RN) to Mid-Intensity Suburban Neighborhood (MN). More specifically, the site is proposed for the development of a 27 lot single-family residential subdivision with a density of 7.85 dwelling units per acre. The applicant is also requesting a zone change for this site from RS20 to RS3.3. This zone change requires a Master Plan Amendment to the Mid-Intensity Suburban Neighborhood land use category. According to the applicant, the proposed land use designation is compatible for the site and will operate as a transitional buffer from the existing commercial to the north and the less intense Ranch Estate Neighborhood (RN) single-family residences to the south. Furthermore, the Master Plan Amendment is compatible with the area which is located near 2 major arterials (Sahara Avenue and Decatur Boulevard) and existing commercial development to serve future residents.

STANDARDS FOR ADOPTION:

The applicant shall demonstrate the proposed request is consistent with the Master Plan and is in compliance with Title 30.

Analysis

Comprehensive Planning

The applicant shall establish the request is consistent with the overall intent of the Master Plan by demonstrating the proposed amendment 1) is based on changed conditions or further studies; 2) is compatible with the surrounding area; 3) will not have a negative effect on adjacent properties or on transportation services and facilities; 4) will have a minimal effect on service provision or is compatible with existing and planned service provision and future development of the area; 5) will not cause a detriment to the public health, safety, and general welfare of the people of Clark County; and 6) adherence to the current goals and policies of the Master Plan would result in a situation neither intended by nor in keeping with other core values, goals, and policies.

The applicant requests a change from Ranch Estate Neighborhood (RN) to Mid-Intensity Suburban Neighborhood (MN). Intended primary land uses in the proposed Mid-Intensity Suburban Neighborhood land use category include single-family attached and detached, and duplexes. Supporting land uses include accessory dwelling units and neighborhood-serving public facilities, such as parks, trails, open space, places of assembly, schools, libraries, and other complementary uses.

The request for Mid-Intensity Suburban Neighborhood (MN) is compatible with the surrounding area. This proposal will still maintain harmonious lower density residential development which will serve as a transitional buffer between the established ranch estate homes to the south and the higher intensity commercial projects farther north toward Sahara Avenue. Additionally, the request complies with Policy 1.4.4 of the Master Plan which encourages efficient development patterns within the disposal boundary to maximize the use of available infrastructure, land, and other resources while considering community compatibility. For these reasons, staff finds the request for the Mid-Intensity Suburban Neighborhood land use category is appropriate for this location.
