### **Analysis**

#### **Current Planning**

A use permit is a discretionary land use application that is considered on a case-by-case basis in consideration of Title 30 and the Master Plan. One of several criteria the applicant must establish is that the use is appropriate at the proposed location and demonstrate the use shall not result in a substantial or undue adverse effect on adjacent properties.

Staff finds that the proposed use is appropriate for the existing office complex. The use should not generate a significant increase in traffic or pose any negative impacts to the office complex and the surrounding areas. There is adequate parking to support the use; therefore, staff supports this request.

### **Department of Aviation**

The property lies within the AE-70 (70 - 75 DNL) noise contour for Harry Reid International Airport and is subject to continuing aircraft noise and over-flights. Future demand for air travel and airport operations is expected to increase significantly. Clark County intends to continue to upgrade Harry Reid International Airport facilities to meet future air traffic demand.

**Staff Recommendation**

Approval.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, Title 30, and/or the Nevada Revised Statutes.

**PRELIMINARY STAFF CONDITIONS:****Current Planning**
