### **STANDARDS FOR APPROVAL:**

The applicant shall demonstrate that the proposed request meets the goals and purposes of Title 30.

### **Analysis**

#### **Current Planning**

A use permit is a discretionary land use application that is considered on a case by case basis in consideration of Title 30 and the Master Plan. One of several criteria the applicant must establish is that the use is appropriate at the proposed location and demonstrate the use shall not result in a substantial or undue adverse effect on adjacent properties. The proposed personal service use will not result in a substantial or undue adverse effect on adjacent properties, character of the neighborhood, traffic conditions, and parking. This building has been used for

many years for this type of commercial use in a variety of units. There is ample parking to accommodate this relatively small area of space being used as a personal services business, even during peak hours; therefore, staff can support the request.

### **Department of Aviation**

The property lies within the AE-70 (70 - 75 DNL) noise contour for Harry Reid International Airport and is subject to continuing aircraft noise and over-flights. Future demand for air travel and airport operations is expected to increase significantly. Clark County intends to continue to upgrade Harry Reid International Airport facilities to meet future air traffic demand.

### **Staff Recommendation**

Approval.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, Title 30, and/or the Nevada Revised Statutes.

### **PRELIMINARY STAFF CONDITIONS:**

#### **Current Planning**

- Applicant is advised that the County is currently rewriting Title 30 and future land use applications, including applications for extensions of time, will be reviewed for conformance with the regulations in place at the time of application; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and that this application must commence within 2 years of approval date or it will expire.

#### **Public Works - Development Review**

- No comment.

#### **Department of Aviation**

- Incorporate exterior to interior noise level reduction into the building construction as required by Code for use.
- Applicant is advised that the Federal Aviation Administration will no longer approve remedial noise mitigation measures for incompatible development impacted by aircraft operations, which was constructed after October 1, 1998; and that funds will not be available in the future should the owners wish to have their buildings purchased or soundproofed.

#### **Fire Prevention Bureau**

- No comment.

**Clark County Water Reclamation District (CCWRD)**

- Applicant is advised that the property is already connected to the CCWRD sewer system; and that if any existing plumbing fixtures are modified in the future, then additional capacity and connection fees will need to be addressed.

**TAB/CAC:** Paradise - approval.
