**LAND USE PLAN:**

ENTERPRISE - LOW-INTENSITY SUBURBAN NEIGHBORHOOD (UP TO 5 DU/AC)

**BACKGROUND:**

**Project Description**

General Summary

- Site Address: N/A
- Site Acreage: 9.9
- Number of Lots/Units: 30
- Density (du/ac): 3
- Minimum/Maximum Lot Size (square feet): 8,082/9,870
- Project Type: Single family residential (detached)

The plans depict a detached single family residential planned unit development situated on a 9.9 acre site consisting of 30 residential lots with a density of 3 dwelling units per acre. The planned unit development (PUD) is more than 5 acres, with proposed gross lot sizes of 8,082 square feet to 9,870 square feet, respectively. Open space is not required for this PUD as the site is located within a rural residential zoning district, with a required open space area less than 10,000 square feet (7,471 square feet for this site). The minimum setbacks for the detached single family residences are as follows:

	<b>Front Setback (feet)</b>	<b>Rear Setback (feet)</b>	<b>Side Setback (feet)</b>	<b>Side Street (Corner) Setback (feet)</b>
Single family residence*	20	20	5	10
Patio cover	-	3	3	7
Balcony (under 6')	-	3	3	7

	<b>Front Setback (feet)</b>	<b>Rear Setback (feet)</b>	<b>Side Setback (feet)</b>	<b>Side Street (Corner) Setback (feet)</b>
Balcony (over 6')	-	17	3	7
Accessory structure (accessory apartment or pool house)	-	5	5	5

\* The PUD establishes alternative front, side, side street (corner) and rear setbacks; however street corner setbacks which are less than 10 feet from a street require a waiver of development standards.

Access to the project site is granted via a 49 foot wide public street, terminating in a cul-de-sac bulb, connecting to Buffalo Drive. A 5 foot wide sidewalk is provided along the north and south sides of the proposed public street, per Public Works standards.

Two existing communication towers are located approximately 230 feet east of Buffalo Drive. The subdivision is designed around the towers, establishing a common lot for the towers. Due to the creation of the new street and residential lots, reductions to the setbacks are required.

**STANDARDS FOR APPROVAL:**

The applicant shall demonstrate that the proposed request meets the goals and purposes of Title 30.

**Analysis****Current Planning**

This request meets the tentative map requirements as outlined in Title 30. Staff is supporting the related zoning request and most use permits, waivers, and design reviews associated with this tentative map. Staff can support the tentative map.

**Staff Recommendation**

Approval.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, and/or the Nevada Revised Statutes.

**PRELIMINARY STAFF CONDITIONS:****Current Planning**

- Applicant is advised that the County is currently rewriting Title 30 and future land use applications, including applications for extensions of time, will be reviewed for conformance with the regulations in place at the time of application; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and that a final map for all, or a portion, of the property included under this application must be recorded within 4 years or it will expire.

**Public Works - Development Review**

- Drainage study and compliance;
- Drainage study must demonstrate that the proposed grade elevation differences outside that allowed by Section 30.32.040(a)(9) are needed to mitigate drainage through the site;
- Full off-site improvements.
- Applicant is advised that approval of this application will not prevent Public Works from requiring an alternate design to meet Clark County Code, Title 30, or previous land use approvals; and that the installation of detached sidewalks will require the vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control or execute a License and Maintenance Agreement for non-standard improvements in the right-of-way.

**Fire Prevention Bureau**

- Provide a Fire Apparatus Access Road in accordance with Section 503 of the International Fire Code and Clark County Code Title 13, 13.04.090 Fire Service Features.
- Applicant is advised that dead-end streets/cul-de-sacs in excess of 500 feet must have an approved Fire Department turn-around provided; and that fire/emergency access must comply with the Fire Code as amended.

**Clark County Water Reclamation District (CCWRD)**

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0242-2021 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.
