**Current Planning**

- Applicant is advised that the County is currently rewriting Title 30 and future land use applications, including applications for extensions of time, will be reviewed for conformance with the regulations in place at the time of application; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and that a final map for all, or a portion, of the property included under this application must be recorded within 4 years or it will expire.

**Public Works - Development Review**

- Drainage study and compliance;
- Drainage study must demonstrate that the proposed grade elevation differences outside that allowed by Section 30.32.040(a)(9) are needed to mitigate drainage through the site;

- Traffic study and compliance;
- Full off-site improvements;
- Right-of-way dedication to include 30 feet for Agate Avenue, 45 feet to the back of curb for Durango Drive, and associated spandrel.
- Applicant is advised that the installation of detached sidewalks will require the vacation of excess right-of-way and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control or execute a License and Maintenance Agreement for non-standard improvements in the right-of-way; and that approval of this application will not prevent Public Works from requiring an alternate design to meet Clark County Code, Title 30, or previous land use approvals.

**Current Planning Division - Addressing**

- Streets shall have approved street names and suffixes;
- Street A is an extension of Alderstone Street and shall assume the same name;
- Approved street name list from the Combined Fire Communications Center shall be provided.
