**Analysis**

Use Permits

A use permit is a discretionary land use application that is considered on a case by case basis in consideration of Title 30 and the Master Plan. One of several criteria the applicant must

establish is that the use is appropriate at the proposed location and demonstrate the use shall not result in a substantial or undue adverse effect on adjacent properties.

In general, staff finds that the proposed uses can be conducted in a manner that are harmonious and compatible with the existing office/warehouse uses. However, staff cannot support the introduction of a supper club with hookah lounge that is proposing a 39% reduction in the required parking for the site. The supper club will have overlapping business hours with the traditional office/warehouse businesses; therefore, parking could become a major problem at this location. Staff understands that several of the business spaces are currently vacant, which would make the current parking situation more favorable; however, that may not always be the case. For these reasons, staff cannot support the supper club with hookah lounge at this location.

#### Waiver of Development Standards

According to Title 30, the applicant shall have the burden of proof to establish that the proposed request is appropriate for its existing location by showing that the uses of the area adjacent to the property included in the waiver of development standards request will not be affected in a substantially adverse manner. The intent and purpose of a waiver of development standards is to modify a development standard where the provision of an alternative standard, or other factors which mitigate the impact of the relaxed standard, may justify an alternative.

Staff finds that this request is excessive and will have a negative impact on the other businesses within the office/warehouse complex. Staff cannot support a 39% reduction in parking spaces for the overall site and recommends denial of the request.

#### **Staff Recommendation**

Denial.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, Title 30, and/or the Nevada Revised Statutes.

#### **PRELIMINARY STAFF CONDITIONS:**
