COUNTY'S obligation to pay PROVIDER cannot exceed the not-to-exceed amount. It is expressly understood that the entire work defined in Exhibit A must be completed by PROVIDER and it shall be PROVIDER'S responsibility to ensure that hours and tasks are properly budgeted, so the entire PROJECT is completed for the said fee.

C. Terms of Payments

1. Each invoice received by COUNTY must include a Progress Report based on actual work performed to date in accordance with the completion of tasks indicated in Exhibit A, Scope of Work. 2. Notwithstanding any other provisions of this Contract, this Contract shall terminate and COUNTY'S obligations under it shall be extinguished at the end of the fiscal year in which COUNTY fails to appropriate monies for the ensuing fiscal year sufficient for the payment of all amounts which will then become due.
3. COUNTY'S total liability for all charges for services which may become due under this Contract is limited to the total maximum expenditure(s) authorized in COUNTY'S purchase order(s) to PROVIDER.

Services to be performed by PROVIDER for the PROJECT shall consist of the work described in the Scope of Work as set forth in Exhibit A of this Contract, attached hereto.

SECTION IV: CHANGES TO SCOPE OF WORK

- A. COUNTY may at any time, by written amendment, make changes within the general scope of this Contract and in the services or work to be performed. If such changes cause an increase or decrease in PROVIDER'S cost or time required for performance of any services under this Contract, an equitable adjustment limited to an amount within current unencumbered budgeted appropriations for the PROJECT shall be made and this Contract shall be modified in writing accordingly. Any claim of PROVIDER for the adjustment under this clause must be submitted in writing within thirty (30) calendar days from the date of receipt by PROVIDER of notification of change unless COUNTY grants a further period of time before the date of final payment under this Contract.

Further, PROVIDER has and shall retain the right to exercise full control over the employment, direction, compensation and discharge of all persons employed by PROVIDER in the performance of the services

hereunder. PROVIDER shall be solely responsible for, and shall indemnify, defend and hold COUNTY harmless from all matters relating to the payment of its employees, including compliance with social security, withholding and all other wages, salaries, benefits, taxes, demands, and regulations of any nature whatsoever.

- B. PROVIDER shall appoint a Manager, upon written acceptance by COUNTY, who will manage the performance of services. All of the services specified by this Contract shall be performed by the Manager, or by PROVIDER'S associates and employees under the personal supervision of the Manager. Should the Manager, or any employee of PROVIDER be unable to complete his or her responsibility for any reason, PROVIDER must obtain written approval by COUNTY prior to replacing him or her with another equally qualified person. If PROVIDER fails to make a required replacement within thirty (30) calendar days, COUNTY may terminate this Contract for default.

PROVIDER will not produce a work product which violates or infringes on any copyright or patent rights. PROVIDER shall, without additional compensation, correct or revise any errors or omissions in its work products.
 - 1. Permitted or required approval by COUNTY of any products or services furnished by PROVIDER shall not in any way relieve PROVIDER of responsibility for the professional and technical accuracy and adequacy of its work.
 - 2. COUNTY's review, approval, acceptance, or payment for any of PROVIDER'S services herein shall not be construed to operate as a waiver of any rights under this Contract or of any cause of action arising out of the performance of this Contract, and PROVIDER shall be and remain liable in accordance with the terms of this Contract and applicable law for all damages to COUNTY caused by PROVIDER'S performance or failures to perform under this Contract.
- H. All materials, information, and documents, whether finished, unfinished, drafted, developed, prepared, completed, or acquired by PROVIDER for COUNTY relating to the services to be performed hereunder and not otherwise used or useful in connection with services previously rendered, or services to be rendered, by PROVIDER to parties other than COUNTY shall become the property of COUNTY and shall be delivered to COUNTY'S representative upon completion or termination of this Contract, whichever comes first. PROVIDER shall not be liable for damages, claims, and losses arising out of any reuse of any work products on any other project conducted by COUNTY. PROVIDER shall be and remain liable for all damages to COUNTY caused by negligent performance or non-performance of work under this Contract by PROVIDER'S subcontractor or its sub-subcontractor.

COUNTY'S representative may delegate any or all of his responsibilities under this Contract to appropriate staff members, and shall so inform PROVIDER by written notice before the effective date of each such delegation.
- C. The review comments of COUNTY'S representative may be reported in writing as needed to PROVIDER. It is understood that COUNTY'S representative's review comments do not relieve PROVIDER from the responsibility for the professional and technical accuracy of all work delivered under this Contract.
- D. COUNTY shall assist PROVIDER in obtaining data on documents from public officers or agencies, and from private citizens and/or business firms, whenever such material is necessary for the completion of the services specified by this Contract.

PROVIDER shall not perform further work under this Contract after the effective date of suspension until receipt of written notice from COUNTY to resume performance. In the event COUNTY suspends performance by PROVIDER for any cause other than the error or omission of the PROVIDER, for an aggregate period in excess of thirty (30) business days, PROVIDER shall be entitled to an equitable adjustment of the compensation payable to PROVIDER under this Contract to reimburse PROVIDER for additional costs occasioned as a result of such suspension of performance by COUNTY based on appropriated funds and approval by COUNTY.

- 3. Termination for Default
 - a. If termination for substantial failure or default is effected by COUNTY, COUNTY will pay PROVIDER that portion of the compensation which has been earned as of the effective date of termination but:
 - i. No amount shall be allowed for anticipated profit on performed or unperformed services or other work; and

- 4. Upon termination, COUNTY may take over the work and execute the same to completion by agreement with another party or otherwise. In the event PROVIDER shall cease conducting business, COUNTY shall have the right to make an unsolicited offer of employment to any employees of PROVIDER assigned to the performance of this Contract.
- 5. The rights and remedies of COUNTY and PROVIDER provided in this section are in addition to any other rights and remedies provided by law or under this Contract.
- 6. Neither party shall be considered in default in the performance of its obligations hereunder, nor any of them, to the extent that performance of such obligations, nor any of them, is prevented or delayed by any cause, existing or future, which is beyond the reasonable control of such party. Delays arising from the actions or inactions of one or more of PROVIDER'S principals, officers, employees, agents, subcontractors, vendors or suppliers are expressly recognized to be within PROVIDER'S control.

EXHIBIT A
LUTHERAN SOCIAL SERVICES
FOR RAPID REHOUSING FOR HOMELESS FAMILIES WITH CHILDREN

SCOPE OF WORK

1.0 Overview

Clark County Social Service provides a variety of services for needy residents of Clark County who are not assisted by other state, federal, or local programs. Social Service is responsible for ensuring that the County meets its health, welfare, and community responsibilities as set forth in the Nevada Revised Statutes and County Ordinances with a primary focus on childless adults. The Department provides programmatic services targeted at various levels to include emergency housing, transitional housing, rapid rehousing, permanent supportive housing, and supportive services. Services are designed for various levels of vulnerable adults to address the underlying causes of homelessness and services necessary to support independence.

This project is intended to provide rapid rehousing services and support to families with children experiencing homelessness. The project will support the needs of the client, support the goal of ending homelessness, and reduce incidences of utilization of high-cost public systems by using the best practices of Housing First/Harm Reduction and Intensive Case Management (ICM).

2.0 Scope of Project

Clark County (COUNTY) will provide County funds to Lutheran Social Services (PROVIDER) to assist with the cost of operating a rapid rehousing program for families with children (PROGRAM). The PROGRAM is designed to assist families with children experiencing homelessness to quickly transition into permanent housing. Rapid Rehousing (RRH) providers are expected to implement a case management approach designed – through connection to mainstream benefits, agency partners, and other community resources – to increase household income and ensure long-term housing stability for project clients. Rapid rehousing should focus on helping people (1) obtain housing quickly, (2) increase self-sufficiency, and (3) stay housed. The PROGRAM should serve at least 60 homeless families with children.

The PROGRAM services shall be provided to families with children free of charge and for the entire PROGRAM period. COUNTY will authorize funds made available for the 2022/2023 program year commencing July 1, 2022 ending June 30, 2023 with the option to renew for (4), one-year periods, with approved grant funding, community need and acceptable provider performance.

3.0 Definitions

Bridge Housing is a hybrid of emergency shelter and transitional housing to serve the population that requires short term housing and supportive services to achieve self-sufficiency or to access available Permanent Supportive Housing.

Case Management is a collaborative process that assesses, plans, implements, coordinates, monitors, and evaluates the options and services required to meet the client's health and human service needs that may include:

- Outreach and client identification: to attempt to enroll clients not using normal regular or mainstream services
- Assessment: to determine a person's current and potential strengths, weaknesses and needs
- Planning: to develop a specific, comprehensive, individualized plan
- Linkage: to transfer clients to necessary services and treatments provided in the community
- Client Advocacy: to intercede on behalf of a specific client or a class of clients to ensure equity and appropriate services
- Crisis Intervention: assisting clients in crisis to stabilize through direct interventions and mobilizing needed supports and services
- Resource Development: attempting to create additional services or resources to address the needs of clients
- Discharge Planning: implementing many of the above functions again to help client plan to transition from

one type of setting or service program to another

Clarity Human Services is a software application that is developed for human services client management. It is a web-based program that allows provider agencies to manage and secure client information. This software is used for the Homeless Management Information System (CMIS/HMIS) for all homeless service providers in Nevada.

Community Management Information System (CMIS) also known as the Homeless Management Information System (HMIS) is a computerized data collection application designed to capture client-level information over time on the characteristics and service needs of men, women, and children experiencing homelessness, while also protecting client confidentiality. It is designed to aggregate client-level data to generate an unduplicated count of clients served within a community's system of homeless services.

Coordinated Entry System (as defined by HUD) means a centralized or coordinated process designed to coordinate program client intake assessment and provision of referrals. A centralized or coordinated assessment system covers the geographic area, is easily accessed by individuals and families seeking housing or services, is well advertised, and includes a comprehensive and standardized assessment tool.

Data Quality Standard is the number (or %) of client records created in CMIS/HMIS that are complete and accurate. The Data Quality Standard is set at 80% accuracy or better. All HUD-supported projects and all projects receiving grant funds are expected to correctly and completely input data on 80% of its client records. This means that no more than 20% of the client files created by an agency in the CMIS/HMIS system can have inadequate, inaccurate, or incomplete data entered for the client. To achieve a higher data quality rating, agencies must complete all data fields on all clients entered into the CMIS/HMIS system. All data fields for each data record must be accurate and complete, which is tested each month by Clarity Human Services.

Diversion is a strategy that prevents homelessness for people seeking shelter by helping them identify immediate alternate housing arrangements and, if necessary, connecting them with services and financial assistance to help them return to permanent housing.

e-Climpact is an online grant management tool used to collect, manage, and report on program-level outcome data. It is a tool utilized by CCSS to organize grant and contract information and used by contracted providers to complete monthly reporting requirements associated with performance and outcome measurement.

Emergency Shelter (ES) are sheltering programs that have minimal entry criteria, include time limits (varies by agency) where the duration is typically less than 90-120 days; are located in a structure offering protection from the elements, provide restroom facilities and drinking water, are supervised and offer appropriate heating/cooling and

proper ventilation. Generally, one hot meal is provided, and no fee is required. ES can include beds, units, temporary spaces or motel/hotel vouchers available to meet the emergency housing needs of persons and families who would otherwise be living on the streets. This does not include the programs and services that meet the definition of prevention, transitional housing or permanent housing.

Harm Reduction is a set of practical strategies and ideas aimed at reducing negative consequences associated with alcohol and substance abuse. Refers to policies, programs, and practices that aim to reduce the harms associated with usage; complements approaches that seek to prevent or reduce the overall level of usage.

Homeless can describe a person's situation if they are sleeping in a place not meant for human habitation (e.g. living on the streets) or in an emergency shelter; or a person in transitional housing for homeless persons who originally came from the street or an emergency shelter. Also a person may be considered homeless if, without the assistance from a service provider, they would be living on the streets. This includes persons being evicted within a week from a private dwelling with no subsequent residence identified and lacks the resources and support networks needed to obtain housing; or being evicted within one week from an institution in which the person has been a resident for more than 30 consecutive days with no subsequent residence identified and he/she lacks the resources and support networks needed to obtain housing.

Housing First is a best practice model approach used to house and provide services for the homeless. Housing First

rests on two premises: 1) the central goal is direct placement into permanent housing for those who are currently homeless, and 2) provision of appropriate individualized services (may include mental health and/or substance abuse treatment) are offered via follow-along services after housing placement to ensure long term housing stability. Housing First is an approach in which housing is offered to people experiencing homelessness without preconditions (such as sobriety, mental health treatment, or a minimum income threshold) or service participation requirements and in which rapid placement and stabilization in permanent housing are primary goals. Programs that use a Housing First approach promote the acceptance of clients regardless of their sobriety or use of substances, completion of treatment, or participation in services.

Housing Navigation Centers are places that will provide a place for unsheltered homeless to access housing navigation services as well as provide a respite from the weather during the hottest and coldest times of the year. Navigation Centers' case managers will work to connect clients to housing, income, public benefits, and health services to support people in changing their lives by making lasting social service and housing connections. Navigation Centers are different from traditional day shelters in that they have few barriers to entry and provide housing navigation and case management services. Unlike traditional day shelters, people with partners, pets and possessions are welcome at Navigation Centers.

Housing Services are services that assist persons with obtaining housing. Services may include: development of housing plans, recruitment of housing units for homeless clients, assist with housing placements and lease agreements, preparation of clients for successful transition to permanent housing, mediation between landlord and tenant, advocating for tenant rights, tenant education, etc. This may include positions such as: housing recruiter, housing harvester, housing specialist, etc., where individual persons are responsible for part or all of the functions mentioned above.

Housing Stability is measured for short term support by successful exits to stable permanent housing. For permanent housing, maintenance of that housing should be a primary focus of outcomes measured.

Mainstream Services are provided by government-funded programs that provide services, housing, and income supports to poor persons, whether homeless or not. They include programs providing welfare, health care, mental health care, substance abuse treatment, veteran assistance, housing subsidies, and employment services.

Move-in Services are those activities that help a client physically move from their current living situation into a qualified housing unit. Services could include: packing supplies, packing assistance, furniture/appliance obtainment, coordination of physical move (truck, movers, etc.).

Scattered Site is a term used to describe individual housing units located in all areas of town with the intention of not placing the majority of clients in one concentrated complex or neighborhood. These units have access to schools, shopping, banking, churches, businesses, etc., mix with private renters and homeowners in their neighborhood and blend into the surrounding community.

Southern Nevada Homelessness Continuum of Care (SNH CoC) is the official board acting on behalf of the Continuum of Care to take care of furthering the mission to end homelessness in Southern Nevada. The Board is made up of representatives from governments, businesses, advocates, public housing agencies, school districts, social service providers, mental health agencies, hospitals, universities, affordable housing developers, law enforcement, organizations that serve homeless and formerly homeless veterans, homeless and formerly homeless persons and any other identified stakeholder that benefits the mission of ending homelessness in Southern Nevada. However, any person or organization interested in addressing homelessness is considered to be a part of the continuum. The Southern Nevada Homelessness Continuum of Care Board is responsible for overseeing Help Hope Home, Southern Nevada's plan to end homelessness. With the enactment of the HEARTH Act in 2009 the CoC is the entity that implements the HUD CoC program and includes all who choose to participate and are concerned with and/or are providing services to individuals and families who are experiencing homelessness. The HUD CoC program is designed to:

- Promote a community-wide commitment to the goals of ending homelessness.
- Provide funding for efforts to rapidly re-house homeless individuals and families.
- Promote access to and effective use of mainstream programs.

- Optimize self-sufficiency among individuals and families experiencing homelessness.

Supportive Housing

Short-Term Supportive Housing, in connection with Crisis Stabilization, provides immediate step of supportive housing for continued stabilization and treatment services 24 hours a day, 7 days a week, for a time limited period of 60-90 days.

- **Recovery Housing** is housing in a client-initiated, abstinence-focused, and peer-supported community for people recovering from substance use issues. Typically, residents choose to actively participate together in community activities focused on supporting recovery. The key is that the program client has sought out this type of program as their preferred choice for supporting their personal commitment to their sobriety and holistic recovery.
- **Transitional Housing** is designed to provide housing in a room, apartment, or comparable setting, and supportive services to facilitate movement to independent living and self-sufficiency.

Long-Term Supportive Housing/Permanent Housing is community-based housing without a designated length of stay, and includes both permanent supportive housing and rapid rehousing. To be permanent housing, the program client must be the tenant on a lease for a term of at least one year, which is renewable for terms that are a minimum of one month long, and is terminable only for cause.

- **Rapid Rehousing** is defined as tenant-based rental assistance and supportive services, to be provided for up to 24 months, to assist a homeless individual or family with or without a disability to move as quickly as possible into permanent housing and achieve stability in that housing.
- **Permanent Supportive Housing** is defined as tenant-based rental assistance and supportive services, to be provided for an indefinite period of time, to assist a chronically homeless individual or family with a disability to move into permanent housing and assist them in living independently.

Supportive Services address the service needs of homeless persons, such as employment, health, drug abuse treatment, or education, to help homeless persons meet three overall goals: 1) achieve housing stability, 2) increase skill and/or income levels, and 3) obtain greater self-determination. Supportive services may include, but are not limited to: assistance in obtaining permanent housing, assistance in obtaining income supports, medical counseling and supervision, mental health and psychological counseling and supervision, employment counseling, substance abuse treatment and counseling, other services such as child care payments, transportation assistance, job placement or training, outreach, life skills training, and transportation.

5.0 Services

The purpose of this section is to provide a description of the services the PROVIDER is responsible to deliver. The PROVIDER is expected to help 60 families with children experiencing homelessness move as quickly as possible into permanent housing and achieve long-term stability through the provision of the following services:

- A. **Rapid rehousing case management** which is assessing, arranging, coordinating, and monitoring the delivery of individualized services to facilitate housing stability for a family experiencing homelessness by assisting them in overcoming immediate barriers to obtaining housing and includes (where applicable):
 - a. Conducting the initial evaluation, including verifying and documenting eligibility
 - b. Using the coordinated entry system
 - c. Counseling
 - d. Developing, securing, and coordinating services
 - e. Obtaining Federal, State, and local benefits
 - f. Monitoring and evaluating client progress

- g. Providing information and referrals to other providers
- h. Developing an individualized housing and service plan, including planning a path to permanent housing stability
- i. Conducting required annual re-evaluation(s)

Effective rapid rehousing case management should:

- a. **Be housing-focused.** To effectively assist client households in achieving housing stability, PROVIDERS must provide ongoing housing-focused case management services. The primary objective of housing- focused case management is to extend support to clients, through an individualized case management relationship, that will ultimately translate to increased housing stability. Housing-focused case management delivery should include:
 - 1. regular consultations with clients in individualized meetings, dedicated to assessing and reassessing needs, educating clients on program and community resource opportunities;
 - 2. developing housing stability plans;
 - 3. scheduling appointments; and
 - 4. providing necessary follow up to ensure housing stability plans are progressing on schedule and needs is adequately being addressed.

PROVIDERS should also use housing-focused case management to determine how to allocate financial assistance to clients on the basis of relative need. Meetings should occur in a client's home and/or in a location of the client's choosing whenever possible.

- b. **Establish a collection of supportive services upon which linkages with public benefits and mainstream community resources can be layered.** To create such linkages, PROVIDERS should research the availability of local programs including healthcare, affordable housing, employment, income support, legal assistance, transportation, and other services to address identified needs and goals. Case managers must help to develop a plan to assist the client retain permanent housing after the assistance ends, taking into account all relevant considerations, such as the client's current or expected income and expenses, other public or private assistance for which the client will be eligible and likely to receive, and the relative affordability of available housing in Southern Nevada.
- c. **Be client-driven.** Case managers should actively engage clients in voluntary case management and service participation by creating an environment in which the client is driving the case planning and goal-setting based on what they want from the program and services, rather than on what the case manager decides they need to do to be successful. Case managers should use a strengths-based approach to empower clients, identifying inherent strengths of a person or family instead of diagnoses or deficits, then building on those strengths to empower the household to succeed.
- d. **Be flexible in intensity** by offering only essential assistance until or unless the client demonstrates the need for or requests additional help. The intensity and duration of case management is based on the needs of individual households and may lessen or increase over time. Services must transition households from homelessness and provide permanent housing that is scattered-site using a Housing First Approach to assist clients with locating and securing housing, negotiating with landlords, obtaining, completing, submitting and tracking the status of housing subsidy applications, completing requests for rental assistance/eviction prevention, making referrals to community agencies for tenant rights legal matters, communicating with affordable housing developers, and providing any needed advocacy and support to retain housing.
- e. **Have an evolving focus.** Initially, RRH case management should be primarily focused on assisting a client in obtaining and moving into a new housing unit. Case managers should help clients resolve or mitigate tenant screening barriers like rental and utility arrears or multiple evictions, obtain necessary identification if needed, support other move-in activities such as providing furniture, and prepare clients for successful tenancy by reviewing lease provisions. After moving in, RRH case management should be home-based and help clients stabilize in housing. Based upon their needs and requests, it should help clients identify and access supports, including family and friend networks, mainstream and community services, and employment and income. Case managers should resolve issues or conflicts that may lead to tenancy problems, such as disputes with landlords or neighbors while also helping clients develop and test skills they will use to retain housing once they are no longer in the program.
- f. **Include clear communication regarding rapid re-housing assistance end dates and case closure.**

In some instances, case management may continue after financial assistance ends if appropriate or requested by the household. For those who will require ongoing support after exiting the rapid re-housing program, case managers should provide clients with warm handoffs to mainstream and community-based services that will continue to assist them.

PROVIDERS should have defined policies and objective standards for when case management should continue and end. These guidelines must be flexible enough to respond to the varied and changing needs of program clients. In instances where cases are continued outside of these defined policies and objective standards, there should be a review and approval process.

- B. **Short- and/or medium-term rental assistance.** The intent of the rental assistance component of rapid re-housing is to enable the quick contract of the immediate housing crisis. Rental assistance:
- a. Should be flexible and tailored to the varying and changing needs of a household while providing the assistance necessary for households to move immediately out of homelessness and to stabilize in permanent housing.
 - b. Amount must be based on the goal of providing the minimum level of support necessary for each household to achieve long-term housing stability. PROVIDERS should start by assuming households, even those with zero income or other barriers, will succeed with a minimal subsidy and support rather than a long subsidy, and extend or increase rental assistance if/when necessary. Households with higher housing barriers or no income may need assistance for different depths or durations, but such households should still be assisted in immediately attaining permanent housing.
 - c. May only be provided if the payment of such assistance is necessary to enable the client to obtain or retain permanent housing. PROVIDERS must help clients develop a reasonable plan to address their future ability to pay rent. PROVIDERS should assist clients to implement such a plan by directly providing necessary supports or by helping clients to obtain necessary public or private benefits or services. If a PROVIDER determines that the rent is not reasonable or sustainable, grant funds should not be used to provide rental assistance. In such cases, PROVIDERS should assist the client in locating housing that better meets the client's needs or, if such housing is not readily available, attempt to connect the client with a program that offers long-term rental assistance (e.g., HUD- VASH, CoC funded supportive housing programs, etc.). If necessary, PROVIDERS should attempt to connect clients with short-term support if long-term support is not readily available.
 - d. Must be based upon the initial evaluation of a client's housing barriers, periodic re-evaluation, and the client's progress meeting the goals of his or her housing stability plan. PROVIDERS have the discretion to determine and provide the appropriate level of rental assistance. PROVIDERS should determine the level of assistance provided on a case-by-case basis, based on the minimum amount necessary for the client to obtain and maintain stability in permanent housing.
 - e. Duration and amount should be determined using a progressive approach. It should be flexible enough to adjust to households' unique needs and resources, especially as clients' financial circumstances or housing costs change. PROVIDERS must have policies detailing their approach that include clear and fair decision guidelines and processes for reassessment for the continuation and amount of financial assistance. Policies and procedures must also detail when and how rapid re-housing assistance is used as a bridge to a permanent subsidy or permanent supportive housing placement.

PROVIDERS should make efforts to maximize the number of households they are able to serve by providing households with rental assistance in a progressive manner, providing only the assistance necessary to stabilize in permanent housing. By not over-serving households, programs can maximize the impact of available resources to serve the largest number of people possible. The flexible nature of the RRH model enables agencies to be responsive to the varied and changing needs of program clients and the community as a whole.

- C. **Financial Assistance.** PROVIDERS may provide the following financial assistance to clients:
- a. Security Deposits - up to 2 month's rent as a security deposit for a housing unit
 - b. First and Last Month's Rent
 - c. Rental Application Fees.
 - d. Utility Deposits and Payment required by the utility company for all customers for gas, electric,

- water, and sewage service.
 - e. Property Damages
 - f. Renter's Insurance
 - g. Items approved in the PROVIDER's budget.
 - h. Other items approved by the COUNTY in writing.
- D. **Moving Costs** - Moving costs payment assistance includes costs necessary to help the client obtain permanent housing. Moving costs may include reasonable costs such as truck rental, hiring a moving company, or short-term storage fees for a maximum of 3 months or until the client is in permanent housing, whichever is shorter. Note: A one-time moving cost for truck rental means one episode of moving to permanent housing. A truck rental may be needed to move client's belongings to storage unit and then moved again once permanent housing is secured. Relocation expenses are an allowable use, when a solid housing stability plan is in place.
- E. **Supportive Services** - Case managers will assist each client, as needed, to obtain appropriate supportive services, including assistance in obtaining permanent housing, family specific services, and other services essential for achieving independent living and stability. Grant funds may be used to pay for eligible supportive services that address the specific needs of families.
- F. **Bridge Housing** - Case managers will assist clients, as needed, in providing suitable bridge housing placement based on the needs of the client which may include transporting the client to bridge housing and the provision of stabilization services.
