Project Description

General Summary

- Site Acreage: 1 (portion)
- Project Type: Cannabis establishment (retail cannabis store)
- Number of Stories: 1
- Building Height (feet): 24
- Square Feet: 4,920

Site Plans

The original plans show a proposed 4,050 square foot 1 story retail building on the eastern portion of the site. Subsequently, ADR-20-900506 was approved to allow for an expansion to 4,920 square feet with a drive-thru. The building is set back 17 feet 8 inches from the east property line, 33 feet south of Warm Springs Road, and 124 feet from the south property line. Parking is located on the west, south, and southwest sides of the proposed building. Bicycle spaces are located to the south of the building. The loading space is directly south of the building. The required trash enclosure is located south of the building and 62 feet north of the south property line. Future cross access is located on the west side of the project area. Access to the site will be from Warm Springs Road via a commercial driveway.

Landscaping

The original plans depict a 15 foot to 28 foot wide landscape area with an attached sidewalk on the north side of property along Warm Springs Road. The original staff report included a waiver for an attached sidewalk, but it was later determined it was no longer needed. A landscape area ranging between 6 feet wide, and 22 feet 8 inches wide extends along the eastern property line. Landscaping along the southern property line is 11 foot wide with evergreen trees planted 20 feet apart. The western portion of the parking area has 2 landscape islands and is comprised mainly of parking area and future cross access. Landscaping within the parking area and throughout the site complies with Title 30 requirements.

Elevations

The original plans show a 1 story building with a light grey stucco exterior with decorative metal panels and steel roof elements.

Floor Plans

The original plans depict the 4,050 square foot building with a reception/waiting area, product sales area, internal pick-up window, delivery area, restroom, break area, storage and prep room, office, IT room, and janitor closet. An administrative design review approved an expansion to 4,920 square feet with a drive-thru.

- Applicant is advised that the FAA's determination is advisory in nature and does not guarantee that a Director's Permit or an AHABA Variance will be approved; that FAA's airspace determinations (the outcome of filing the FAA Form 7460-1) are dependent on petitions by any interested party and the height that will not present a hazard as determined by the FAA may change based on these comments; that the FAA's airspace determinations include expiration dates; and that separate airspace determinations will be needed for construction cranes or other temporary equipment.

Clark County Water Reclamation District (CCWRD)

- Applicant is advised that a Point of Connection (POC) request has been completed for this project; to email sewerlocation@cleanwaterteam.com and reference POC Tracking #0265-2020 to obtain your POC exhibit; and that flow contributions exceeding CCWRD estimates may require another POC analysis.
