BACKGROUND:

To recognize the U.S. Department of Housing and Urban Development for the award of nearly \$15 million in grants to the Southern Nevada Homelessness Continuum of Care to help address homelessness in Southern Nevada over the next three years.

The Southern Nevada Homelessness Continuum of Care is comprised of local governments and other agencies, religious organizations, advocacy groups and others concerned with the issues of homelessness and affordable housing through a coordinated and regional approach to planning service provision.

This funding will help programs which include rapid rehousing, permanent supportive housing, case management, and supportive services.

The 2022 Homeless Census found 5,645 people living in shelters or on the streets and estimated that nearly 14,000 people experienced homelessness in Southern Nevada at some point during the year.
