**Project Description**

General Summary

- Site Address: N/A
- Site Acreage: 5
- Existing Land Use: Undeveloped

Applicant's Justification

The applicant indicates that the justification for this amendment is grounded in the fact that a portion of one of the subject properties included in this request (western half of 176-13-701-026) is already master planned Mid-Intensity Suburban Neighborhood (MN), allowing for greater density than the requested land use category of LN. The requested LN land use category will allow for a better transition between the R-E (RNP-I) developments to the west and the RUD development to the east. The request also addresses the need for in-fill development in Clark County and reduces urban sprawl. The strategic placement of LN adjacent to an existing Mid-Intensity Suburban Neighborhood (MN) to the east acts as a catalyst for in-fill development.

**STANDARDS FOR ADOPTION:**

The applicant shall demonstrate the proposed request is consistent with the Master Plan and is in compliance with Title 30.

**Analysis**

**Comprehensive Planning**

The applicant shall establish the request is consistent with the overall intent of the Master Plan by demonstrating the proposed amendment: 1) is based on changed conditions or further studies; 2) is compatible with the surrounding area; 3) will not have a negative effect on adjacent properties or on transportation services and facilities; 4) will have a minimal effect on service provision or is compatible with existing and planned service provision and future development of the area; 5) will not cause a detriment to the public health, safety, and general welfare of the people of Clark County; and 6) adherence to the current goals and policies of the Master Plan would result in a situation neither intended by nor in keeping with other core values, goals, and policies.

The applicant requests a change from Ranch Estate Neighborhood (RN) to Low-Intensity Suburban Neighborhood (LN). Intended primary land uses in the proposed LN land use category include single family detached homes. Supporting land uses include accessory dwelling units and neighborhood serving public facilities, such as parks, trails, open space, places of assembly, schools, libraries, and other complementary uses.

Staff finds the request to redesignate the site to Low-Intensity Suburban Neighborhood (LN) to not be compatible with the surrounding area. Edmond Steet currently acts as a clear line of demarcation between the Mid-Intensity Suburban Neighborhood (MN) to the east and the Ranch Estate Neighborhood (RN) to the west. The RN area west of the site and south of Cougar Avenue is zoned R-E (RNP-I) and is developed; and therefore, is still a viable RNP area. The request does not comply with Policy 1.5.1 of the Master Plan which supports the protection of existing Rural Neighborhood Preservation (RNP) areas as defined by NRS 278; and Policy 1.5.2 which promotes adopting and implementing standards to protect the established character and lifestyles associated with RNP areas and minimize future conflicts with higher intensity development planned on sites that are adjacent to RNP areas. For these reasons, staff finds the request for the LN land use category not appropriate for this location.

**Staff Recommendation**

Denial. If approved, adopt and direct the Chair to sign a resolution adopting the amendment. This item will be forwarded to the Board of County Commissioners' meeting for final action on March 6, 2024 at 9:00 a.m., unless otherwise announced.

If this request is adopted, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, Title 30, and/or the Nevada Revised Statutes.
