Project Description
General Summary
- Site Address: 6211 Vegas Valley Drive
- Site Acreage: 15.20 (portion)

Applicant's Justification

STANDARDS FOR APPROVAL:
The applicant shall demonstrate the proposed request is consistent with the Master Plan and is in compliance with Title 30.

Analysis

Comprehensive Planning

In addition to the standards for approval, the applicant must demonstrate the zoning district is compatible with the surrounding area. The request for RM32 zoning on the site is not compatible with the surrounding area. The proposed residential use would be adversely impacted since the site is essentially surrounded by industrial uses including an electric generation facility to the north (zoned IP, IL, & IH), a recycling center and an automobile auction facility to the east (zoned IP & IH), and a wastewater treatment plant to the west (zoned PF). Furthermore, the change from PF to RM32 zoning may adversely impact future residents on the site due to nuisances such as odors and/or noise. Title 30 would typically require the existing recycling center to the east to be 600 feet from any nonindustrial use, the existing wastewater treatment plant to the west to be 1,000 feet from any nonindustrial use, and the existing electric generation (large scale) facility to the north to be 1,000 feet from any nonindustrial use, which the proposed residential use would not meet any of these requirements. The request does not comply with Policy SM-1.1 of the Master Plan which encourages reinvestment and revitalization of older neighborhoods in Sunrise Manor that is compatible with existing development. For these reasons, staff finds the request for RM32 zoning is not appropriate for this location.

Staff Recommendation

Denial. This item has been forwarded to the Board of County Commissioners for final action.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Master Plan, Title 30, and/or the Nevada Revised Statutes.
