**LAND USE PLAN:**

ENTERPRISE - RESIDENTIAL LOW (UP TO 3.5 DU/AC)

**BACKGROUND:**

**Project Description**

The property was previously approved as a single family residential development. The approved request is to vacate easements and rights-of-way that the applicant indicates are not necessary for the development of the area and conflict with the design of the proposed residential development. All necessary easements and rights-of-way will be provided with the future recording of the subdivision map.

Previous Conditions of Approval

Listed below are the approved conditions for VS-18-1029:

Current Planning

- Satisfy utility companies' requirements.
- Applicant is advised that a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and that the recording of the order of vacation in the Office of the County Recorder must be completed within 2 years of the approval date or the application will expire.

Public Works - Development Review

- Drainage study and compliance;

- Right-of-way dedication to include 55 feet to the back of curb for Starr Avenue and all portions of the cul-de-sac that are necessary to provide a complete County approved turnaround on Placid Street;
- Prior to the approval of off-site improvement plans, the applicant shall provide a written, notarized letter from the owner of APN 177-33-801-012 approving the proposed access to his or her property;
- The applicant shall grant a perpetual access easement to the owner of APN 177-33-801-012 and his or her successors and assigns to allow unobstructed access to said parcel;
- Vacation to be recordable prior to building permit issuance or applicable map submittal;
- Revise legal description, if necessary, prior to recording.
- Applicant is advised that this site is located within a Special Flood Hazard Area (SFHA) as designated by the Federal Emergency Management Agency (FEMA); and that the installation of detached sidewalks will require dedication to back of curb and granting necessary easements for utilities, pedestrian access, streetlights, and traffic control.

#### Applicant's Justification

The applicant indicates that since the original approval, the subject site and the property to the north will be developed together. A request for an extension for 2 years is necessary so that the developer can coordinate improvements with the properties to the north and complete the recordation of the application with the final map.
