BACKGROUND:

The Clark County Regional Flood Control District (RFCD) has approved and provided funding for the Fairgrounds Detention Basin and Outfall project on its 2011 Master Plan Update for Moapa Valley.

The attached interlocal contract will provide funds for construction and construction engineering for the subject project, consisting of a 135-acre foot detention basin and outfall storm drain conveyance facilities along Heyer Street, and along Whipple Street to the Muddy River. This project will be constructed within an existing Bureau of Land Management grant of easement and in existing Clark County right-of-way, and all environmental requirements have been met. The time of performance is effective to June 30, 2026, unless further time extensions are granted.

This project is approved on RFCD's annual Ten-Year Construction Program and described on its 2011 and 2016 Master Plan Update for Moapa Valley and 2020 Master Plan Update for Muddy River and Tributary Washes. RFCD approved the interlocal contract at its meeting on June 10, 2021.

The District Attorney's Office has reviewed and approved the contract as to form.
