**LAND USE PLAN:**

SPRING VALLEY - MAJOR DEVELOPMENT PROJECT (RHODES RANCH) - LIMITED RESORT

## **BACKGROUND:**

### **Project Description**

#### General Summary

- Site Address: N/A
- Site Acreage: 71
- Number of Units: 726 rooms
- Project Type: Resort hotel/casino and commercial retail development
- Building Height (feet): Up to 216
- Parking Required/Provided: 3,934/6,205

#### Site Plans

The previously approved plans show that Durango Station Casino will have 2 hotel towers at a height of 145 feet and 216 feet (previous maximum heights shown at 155 feet and 216 feet) and include 726 hotel rooms (previous maximum hotel rooms shown at 1,000). The casino was approved for a maximum casino square footage consisting of 120,000 square feet. Also included within the site is a retail plaza consisting of 8 buildings located at the northwest portion of the site. The retail buildings are centered along an outdoor pedestrian realm which includes benches, planters, water features that use reclaimed water, enhanced pavers, and open space areas where people can gather. The pedestrian realm also fully connects the retail component with the other uses on the property by using walking paths and courtyards in the design. The retail buildings will total 139,071 square feet and range in size from 5,613 square feet to 26,877 square feet. The elevations depict varying roof lines generally being 40 feet in height consisting of a variety of facade walls which change color, texture, and design. Also shown on plans is a 6 level “north” parking garage located between the new retail area and the hotel/casino. Parking for the resort and retail area is provided by 2 parking garages including 1,993 and 2,055 parking spaces respectively, and 2,157 surface parking spaces (excluding 320 diamond spaces) which are distributed throughout the site within extensive parking lots located along the street frontages. The parking requirement for this project is 3,934 spaces which this site exceeds.

- Vacate any unnecessary rights-of-way and/or easements;
- Any applicable vacations to be recordable prior to final map technical review;
- If required by Regional Transportation Commission, dedicate and construct right-of-way for bus turnouts including passenger loading/shelter areas in accordance with Regional Transportation Commission standards.

#### Applicant's Justification

According to the applicant the original project was put on hold but always intended on proceeding in conformance with all agreed conditions when market circumstances and internal capital programs permitted. The circumstances to proceed are now in place and Station Casinos has submitted a companion design review that still relies on UC-0726-08 but is substantially reduced in intensity. The project as proposed with the companion design review is sensitive to the immediate area with corresponding setbacks and buffering and fully complies with all original conditions of approval. Since the proposed project is reliant on this use permit, they are requesting an extension of time for an additional year in which time they will have commenced and will no longer require additional extensions.

**STANDARDS FOR APPROVAL:**

The applicant shall demonstrate that the proposed request meets the goals and purposes of Title 29.

**Analysis****Current Planning**

Title 29 standards of approval on an extension of time application state that such an application may be denied or have additional conditions imposed if it is found that circumstances have substantially changed. A substantial change may include, without limitation, a change to the subject property, a change in the areas surrounding the subject property, or a change in the laws

or policies affecting the subject property. This site has been planned for a resort hotel/casino since the original approval of the Rhodes Ranch Master Plan and staff finds that it is still a viable site for such use. Station Casinos has submitted a companion application to move forward with the project; therefore, staff can support an additional 2 years to commence the project. Additionally, for clarification purposes, staff finds the condition added to UC-0726-08 (ET-0082-13) and UC-0726-08 (ET-0073-15) requiring a development agreement is not applicable to the subject resort hotel/casino and is instead required for the western 20 acre transitional area planned for 1,000 residential units as provided for in the adopted development agreement (second amendment). As such, any future application for the 1,000 residential units will be required to enter into a standard development agreement with the County due the recent expansion of the Public Facilities Needs Assessment area east and north of the subject site.

#### **Public Works - Development Review**

Staff has no objection to this extension of time.

#### **Staff Recommendation**

Approval.

If this request is approved, the Board and/or Commission finds that the application is consistent with the standards and purpose enumerated in the Comprehensive Master Plan, Title 29, and/or the Nevada Revised Statutes.

#### **PRELIMINARY STAFF CONDITIONS:**

##### **Current Planning**

- Applicant is advised that the development agreement required in the prior extensions of time for the subject application are applicable to the additional 1,000 residential units in the western 20 acres and not the resort hotel/casino; a standard development agreement will be required as a condition of any application for the 1,000 residential units; a substantial change in circumstances or regulations may warrant denial or added conditions to an extension of time; the extension of time may be denied if the project has not commenced or there has been no substantial work towards completion within the time specified; and that this application must commence within 2 years of approval date or it will expire.

#### **Public Works - Development Review**

- Compliance with previous conditions.

#### **Clark County Water Reclamation District (CCWRD)**

- No comment.
