**BACKGROUND:**

The Regional Transportation Commission of Southern Nevada (RTC) has approved and budgeted funding for the Advanced Transportation and Congestion Management Technologies Deployment (ATCMTD) - US-95 Integrated Safety Technology Corridor project (Clark County Public Works Project No. PW.R258AFT) in the amount of \$3,100,000 in RTC's Highway Improvement Acquisition Fund for Fiscal Year 2022. RTC, in coordination with Clark County, City of Las Vegas, City of North Las Vegas, City of Henderson, City of Boulder City, and City of Mesquite (collectively "Member Entities"), intends to design, construct, operate, and evaluate various safety technologies along US-95 between Interstate 515 and Summerlin Parkway, beneficial to each Member Entity.

The attached Interlocal Contract No. 1304 identifies RTC as the lead agency. Through Agreement No. 21-061 with the Federal Highway Administration and Agreement No. P293-21-063 with the Nevada Department of Transportation, RTC secured funding to cover all costs associated with this project. The time of performance is effective to December 31, 2026, unless time extensions are granted.

This project is included on the adopted RTC Capital Improvement Plan. RTC approved the interlocal contract at its meeting on August 12, 2021.

Each of the Member Entities is scheduled to approve the interlocal contract at their respective Board/Council meetings.

The District Attorney's Office has reviewed and approved the interlocal contract as to form.
