BACKGROUND:

Project Description

General Summary

- Site Address: 9180 W. Russell Road
- Site Acreage: 4.8
- Number of Units: 84
- Density (du/ac): 17.5
- Minimum/Maximum Lot Size (square feet): 951 (gross and net)/1,184 (gross and net)
- Project Type: Attached single family residential planned unit development
- Open Space Required/Provided: 21,127/32,384

The plans depict a residential development consisting of 84 single family attached townhome lots and 30 common area lots on 4.8 acres. The density of the overall development is shown at 17.5 dwelling units per acre. The project is made up of 4 plex and 6 plex buildings designed around 30 foot wide private streets. The street network consists of 1 main drive, Catmint Street, a private street connecting to a loop featuring 4 internal private streets. Lot 13 through Lot 30, Lot 49 through Lot 66, and Lot 67 through Lot 84 are located along the east, north, and west perimeters of the project site. Lot 55 through Lot 66 are located on the south portion of the site, along Russell Road. Lot 36 through Lot 48 are centrally located within the project site, along the private street network. The development will be served by a single point of ingress/egress along the southwest portion of the site, adjacent to Russell Road. A 30 foot wide cross-access drive aisle is proposed at the southeast corner of the site, connecting to the existing commercial development to the east. A network of common open spaces are located throughout the development which includes a pool, spa, and cabana area located immediately to the south of Lot 36 and Lot 37, and an internal network of on-site pedestrian paths. The townhouse units do not

include garages; therefore, all parking for the development is provided via unenclosed spaces equitably distributed throughout the site. Approximately 190 parking spaces are shown for residents and visitors where 185 parking spaces are required per Code. The minimum and maximum lot areas are 951 square feet and 1,184 square feet, respectively. The minimum setbacks for the townhouse units are as follows:

- Front – 5 feet (3 feet for architectural intrusions and enclosures)
- Rear – 10 feet
- Interior Side Setback – zero feet (unit to unit), 5 feet from building to property line
- Side Street Corner Setback – 5 feet
- Perimeter Setback – 10 feet
- Roof Eave – extends a maximum of 2 feet from building

Landscaping

Street landscaping consists of a 15 foot wide area, located behind an existing 5 foot wide attached sidewalk adjacent to Russell Road. Twenty-four inch box trees, including shrubs and groundcover, are located within the landscape area. A 6 foot high decorative block wall will be provided behind the street landscape area. Internal to the site, a network of on-site pedestrian paths and common open space areas, including a pool, spa, and cabana area provide a total of 32,384 square feet of open space where 21,127 square feet of open space is required. Combined screen wall/retaining wall heights ranging between 9 feet to 12 feet in height are located along the north and east property lines of the site.
