Analysis

Current Planning

Title 30 standards of approval on an extension of time application state that such an application may be denied or have additional conditions imposed if it is found that circumstances have substantially changed. A substantial change may include, without limitation, a change to the subject property, a change in the areas surrounding the subject property, or a change in the laws

or policies affecting the subject property. Using the criteria set forth in Title 30, no substantial changes have occurred at the subject site since the original approval.

Staff previously recommended approval of the proposed place of worship because the use was found not to have an adverse or negative impact on the surrounding parcels. The request for an extension of time can be supported by staff as progress has been made by the applicant. A minor subdivision map was submitted to the County for review and was approved in June 2021. Therefore, staff can support this extension of time.

Public Works - Development Review

There have been no significant changes in this area. Staff has no objection to this extension of time.
