Description:	Hiko Springs Wash Detention Basin Expansion		
Additional Comments:	N/A		

**BACKGROUND:**

The Clark County Regional Flood Control District (RFCF) has approved and provided funding for the Hiko Springs Wash Detention Basin Expansion project described in its 2018 Clark County Flood Control Master Plan Update, Structures No. LUHS 0244.

The attached interlocal contract will provide funds for pre-design, design engineering, and entity design labor, with project improvements to upgrade the Hiko Springs Wash Detention Basin, including pre-design to determine flows from the future Bridge Canyon Detention Basin and the Needles Highway Diversion Structure to determine the capacity needs of the Hiko Springs Wash Detention Basin. The time of performance is effective to June 30, 2026, unless further time extensions are granted.

This project is approved on RFCF's Ten-Year Construction Program, with design scheduled to begin in Fiscal Year 2021-2022. RFCF approved the interlocal contract at its meeting on October 14, 2021.

The District Attorney's Office has reviewed and approved the contract as to form.
