The specifics of the collection of delinquent assessments are provided in assessment ordinances and bond covenants. Proceeds from sales will be credited to each Special Improvement District Debt Service or Maintenance Fund. Any fiscal impact related to collection efforts would be costs recovered through fees received at the time of the sale.		

BACKGROUND:

Clark County creates improvement districts from time to time to fund certain public works projects. Those properties which enjoy special benefit from such improvements or maintenance are assessed for their share of the cost. The County usually issues bonds to fund construction costs, and property owner assessments are structured to make the bond payments. For maintenance districts, an annual assessment ordinance with the estimated cost for the next fiscal year is approved for properties benefiting from the various street beautification projects.

Nevada Law and bond covenants require collection proceedings against delinquent assessments. This Resolution authorizes the notice of sale of properties with delinquent assessments. The properties sold are subject to redemption within the time period provided in NRS 271.595.
